Sooth.fyi

Empowering All Students for Knowledge Discovery

The <u>only</u> internet search and digital literacy platform designed for educators, students, and researchers at all levels.

Key Features

Curated, High-Quality Sources

- Thousands of vetted sources including news outlets, academia, think tanks, consultants, government sources, and more
- No AI chatbots, commercial content, ads, or unreliable sources

Collaborative Features

- Create and share research collections
- Bookmarking capabilities for lesson planning and student research projects
- Collaborative collections created by educators and students

Enhanced Research Support

- Layout of search results organized for efficient discovery
- Built-in citation and Works Cited generator for proper attribution
- Article summarizer to help grasp key points
- Customizable layout to guide research at any level

Privacy and Compliance

- Adheres to educational data privacy best practices
- Member of <u>Student Data Privacy Consortium</u>
- COPPA Compliant for use in K-12

Information Literacy Tools

- <u>NewsGuard</u> integration for source credibility ratings
- <u>AllSides</u> Media Bias Ratings for balanced perspective
- Promotes critical thinking and source evaluation skills across all educational levels

User-Friendly Implementation

- Web-based application with no technical setup
- Single Sign-On options (Google, Microsoft, Clever, ClassLink)
- Accessible on various devices (optimized for desktop/laptop use)

Benefits for Your Institution

Seamless Implementation

- Compatible with all Learning Management Systems or as a standalone platform
- Rapid onboarding, live and recorded tutorials for faculty and students

Streamlined Resource Management

- Centralize research resources, reducing fragmented subscriptions and costs
- Simplify library acquisitions and database management

Alignment with Educational Standards and Frameworks

Fair & Transparent Pricing

Sooth is built on transparency; so is our <u>pricing</u>. All pricing is based on two criteria: number of users (volume-based discounts) and grade level

- Full transparency with no hidden fees
- All-in-one solution potentially reducing overall research tool expenses
- Free and reliable US-based support, weekly live office hours, and full tutorial library
- Free trials and pilot programs available
